FALLEN TIMBER

(From Our Own Correspondent)

Mr. and Mrs. L. Barnes, Raymond and Sharon, of Saskatchewan, are visiting at the home of Mr. and Mrs. L. Wannanaker. They are here to attend the wedding of Miss Ester Johnson to Mr. Barry McMullen.

Mrs. B. Dick recently noticed her pigs attacking what she thought was a turkey. She rushed to save the bird only to discover it was a large eagle trying to take a small pig. The sows were attacking the marauder and Mrs. Dick finished it off with a stick. The eagle had a 3-foot wing spread.

Guests at the home of Mr. and Mrs. George Admussen for dinner recently were Miss M. Armstrong, Mrs. F. Admussen and Reg. H. McMillen.

Mr. and Mrs. W. H. McGaffin of Didsbury spent Thursday visiting their grandchildren, Mrs. George Admussen, at Bergen.

Mr. and Mrs. Bob Moore of Bergen, who are present working west of Sundre, visited their home recently, only to discover that someone had shot out the windows in many of their buildings. This case of outright vandalism appears to be the work of youths with 22 rifles and stern measures will be taken should they be apprehended.

SQUARE DANCING

Everybody interested in starting square dancing are invited to attend a meeting in Miller Bros. Garage, Oids, on Monday evening, Oct. 26, at 8:30. Tentative plans are to have two clubs with Don Martin calling for both. One club will be held at the beginners' level while the other will feature more dancing and less walking through. A fee of \$10 will entitle a couple to belong to either club with the possible option of attending dances at both or either club with no further charge.

The first square dance by the regular club will be on Friday, November 6 at 8:30 p.m. at Oids Auditorium and the date for the other club will be arranged at the October 26 meeting.

Your presence is particularly needed as the success of the new club depends largely on the attendance at this meeting. Anyone unable to attend and wishing to join either club, can get in touch with Don McKenzie, phone 78, Oids, or Elsie Wright, phone 2203, Oids.

The supper will begin at 7 p.m. The friends of Redeemer congregation are also cordially invited to attend.

A rodent, suspected to be a rat, was killed on a farm within five miles of Didsbury on Friday of last week and has been sent to the department of agriculture at Edmonton for positive identification.

There were three of the animals found under a green feed stack on a district farm. Two were killed and one escaped. All three were in the infant stage and were albino in color, with large ears and long whiskers.

Mr. W. K. Snyder advises us today that word is expected momentarily on the findings at Edmonton, and more information is expected shortly.

GOLF NOTES

The golf season is fast drawing to a close. Tournaments have been completed and the winners were John Holub main event and Fred Evans finished up second.

During the recent holiday Cameron Wordie had the unique experience of playing the No. 3 hole at the local course with an eagle and two birdies in three rounds of golf.

Many of the golfers are still enjoying a pleasant round of golf at this late date and we see quite a number of Carlsbuds shotsmiths, male and female, coming up for a game. The course has been so tempting this year they cannot resist making the trip to the local course for a round of golf.

Melvin W.I. Regular Meeting

The October meeting of the Melvin W.I. was held on Wednesday at the home of Mrs. V. Shields. Roll call was "how to postpone old age."

A letter was read from the Junior Red Cross hospital soliciting donations of vegetables, quilts and used clothing, especially beds and nightgowns up to 18 years.

It was decided to begin a quilt at once and each member is asked to bring to the next meeting one or more print blocks on cloth back, measuring 12" by 12".

It was suggested that all who could would make several bibs of very towelling and bring them to the meeting. Vegetables are to be sacked and labelled and left at the office of Didsbury Cartage who will transport them to Calgary free of charge.

As funds are very low each member is to raise \$2.00 by the November meeting and must relate how he got it.

A travelling library was planned for the winter, books and reading material to be loaned by members.

Emily Dupont read a hilarious story entitled "A Half Day in a Truckers' Camp." The kitchen contest given by Mrs. G. Youngs was won by Mrs. M. McRae, second Mrs. E. Dupont.

The scroll, headed by the royal emblem which accompanied the medals was worded: By command of Her Majesty the Queen the accompanying medal is forwarded (name) to be worn in commemoration of Her Majesty's Coronation, 2nd June, 1953.

TOM MORRIS

Those so honored were Mr. Tom Morris and Mr. W. H. T. Morgan. The former has owned and operated the Didsbury Dairy Farms for the past 23 years and has been active in community and district affairs for most of that time. He was chairman of the Didsbury hospital board before, during and after the new hospital was built. He has a doctor for most of the time. He was chairman of the Oids School Division.

Mr. Morris also holds a Leadership Award certificate from the Canadian Council on Boys' and Girls' Club Work for over ten years' leadership and at the moment is also president of the Alberta Dairy-men's Association.

Like Mr. Morris, Mr. Morgan was reluctant to give us too many details on his past performances but we managed to gain the following details from him. He spent the first five years of his civil service in Calgary and realized it was only a cow town migrated to Didsbury where the air is fresher, the streets are not so crowded and white cowboys hats are not presented to everyone who steps off the train. If such were the case Morgie would have seen a lot of them for he has been meeting trains here in his postmaster's capacity for the past 30 years.

Mr. Morgan has served as president of the Alberta Branch Postmasters' Association for 10 years and for three years was president of the dominion body. He has been on the provincial executive for 23 years.

At regular meeting of Didsbury town council Monday night it was suggested that a sidewalk be built from the Pete Leisemer corner to the hospital and a culvert and drive-in be installed at the east side of the hospital. No decision was reached on the project.

Building permits were approved as follows: Jenkins' Groc., renovations; J. Wesley, residence; I. Baptiste moving of garage from property.

A grant of \$150 was made to the Didsbury and Sundre Townships. This year the rate will be held on Monday, Dec. 14.

Through The Study Window

By REV. C. C. ARMSTRONG

Away back in 1939 a salesman sold me a number of magazine subscriptions, together with a dictionary which was offered as a premium. I didn't refer to the dictionary very much at that time, as my favorite publication was "The Practical Bachelor's Guide to the Home-Cooked Meal." Now, safely married and in need of the Bachelor's Guide, I am better able to appreciate the dictionary.

There is in it, for example, the truly expressive word called "glory-hole." It follows immediately after the good Biblical term "glory." A glory-hole is one of two things. It may be an opening into a furnace, showing the light within; or it may be "a place in which to hide valuables, or by contrast, a place for kitchen utensils." As it concerns the church, then, a glory-hole is the equivalent for Pinner Mager's closet, and every self-respecting church ought to have one. In it are stored the unclaimed rubbers, chairs in need of repair, tables for the church supper, Christmas decorations left over until next year, and all manner of valuables. It is a treasure-trove of undiscovered wonders, some too valuable to be thrown away, and some not valuable enough to be kept anywhere else.

One finds mention of them in Scripture. It was from a glory-hole in the temple at Jerusalem that the book of the Law was taken in the reign of King Josiah, after remaining hidden for many years. That discovery sparked a spiritual revolution in Israel. Thus it symbolizes for us not so much a place in which to put things, but a place from which hidden valuables may be taken and used. There is thus solid worth in a church which maintains a glory-hole for the service and benefit of others.

The principal value of the church, of course, however is a glory-hole with the meaning of "an opening to show the light within," from whence comes both warmth and light. The warmth of the Christian spirit is often shown in deeds of practical helpfulness, which naturally leads to the idea of the clothing drive, sponsored by the Women's Missionary Society.

The ladies are asking that each family glory-hole be investigated, and all good clean used clothing be brought out, taken to the home

of Mrs. C. Roache, on October 22nd. From there they will be taken to the church and packed for overseas areas where people will treasure it, not only for itself but as a visible expression of the Christian spirit. Used in this way, a glory-HOLE becomes a GLORY-hole.

Farmers Will Lose On Lack Of Storage

By DOUG COLLINS
Farmers and grain elevator operators see no immediate solution to the problem of grain storage resulting from plugged elevators, continued good crops, and the uncertainty of international markets.

Only one thing is certain in an otherwise uncertain situation — that the Alberta farmers, together with their counterparts in the rest of Western Canada, are likely to lose money this year.

"PERMANENT storage therefore remained, said grain elevator company officials, as the sole local solution."

Bacon has been selling in Winnipeg for over \$1.00 a pound. The reason therefore is Canadian farmers reduced hog production last year and those who have hogs to sell have been too busy harvesting their crops to deliver same to market.

UNITED NATIONS AFTER EIGHT YEARS

It is easy to criticize the United Nations. It is not so easy to figure out something better that could take its place. Before we dismiss the U.N. as of little value, it would be well to think of what the world would be like without it.

It is true that the dreamers who assisted at the birth of the United Nations eight years ago have been disappointed. But weren't they expecting the impossible? Nations, like men, cannot be reformed overnight. It's going to be a while yet before the world has heard the last of war, or of famine, or poverty, or disease.

Meanwhile, under the United Nations, the world is making some progress in the right direction and for that progress, small as it is, we can be truly thankful.

WHAT IS A SECRET?

Ottawa circles are upset over the public's learning of Avro's "Flying Saucer," and other defense items like the air-to-air missile for jet fighters and the radar system called the "Modell Penet."

If these so-called "top secrets" are so loosely guarded that the public can learn of their existence through the newspapers or rumour, what must trained enemy agents have uncovered? Now at least officialdom has proof of the holes in the secrecy curtain.

There is a second issue as well. Are there too many things labelled "secrets"? Are we trying to hide the location of the St. Lawrence River, or Hudson Bay?

The military mind tends to look with disdain upon the public's right to know how its money is being spent, how — or whether — the country is adequately defended. The rubber stamp "secret" is an easy way out. It can hide inefficiency and waste. It can stop questions without giving answers. The taxpayer has the right to know everything about defense except those things which would actually help his enemies. It's his country, his life, his money.

T.B. DEATH RATES SHOW BIG DECLINE

Tuberculosis death rates have declined spectacularly in the past 10 years, but T.B. deaths are no longer an indication of its potential dangers, according to provisional figures issued by the Bureau of Vital Statistics.

This fact is vividly brought to mind by the decline in T.B. deaths from 6,000 in 1942, to 2,600 in 1950; on the other hand, patients under treatment in Canadian sanatoria have increased from 12,000 in 1942, to 18,000 in 1950. It is obvious that there is still a great deal of tuberculosis in Canada, especially when it is noted that there is probably at least one unknown case for each one under treatment.

It is pointed that progress in preventive measures apparently has not kept pace with improvements in treatment techniques, such as new methods of surgery and the so-called miracle drugs. It is stressed that the importance of keeping in mind always that it is infinitely better to prevent tuberculosis than to cure it, and our primary object should be prevention through education and assistance in finding of unknown causes.

Provisional statistics indicate that Alberta now has the second lowest death rate from T.B., with a rate of less than 12 per 100,000 population.

The Joke Box!!

Joe — How did you get that black eye?
Moe — I went to a party last night and I was struck by the beauty of the place.

Bill — What would you do if you were in my shoes?
Mike — Shine them.

First Soloist — Did you notice how my voice filled the hall tonight?
Second Soloist — Well I noticed several people leaving to make room for it.

Most fellows take misfortune like a man — blame it on their wives!

The taxpayers are beginning to feel like the sick man about whom the doctor inquired.

"Nurse, did the patient take the medicine religiously, as I ordered?"
"No sir," replied the nurse. "He cursed every time he took it."

Joe: "You look very downcast."
Jim: "Yes, my wife has been away for six weeks, and she's just come back."

Joe: "Why should that make you sad?"

Jim: "Well, I told her that I spent all my evenings at home and today the light bill came. It's fifty cents."

LIFE'S GREATEST TRIUMPH — VICTORY OVER ONESELF

A person can be his worst foe, his most serious problem, his greatest liability, most severe critic or his greatest stumbling block. He can also be his best friend, his most helpful counselor, best booster and his greatest asset.

Often those qualities are in sharp conflict when one is trying to decide what he wants to do and what he should do. Therefore, many times one's hardest and most stubborn battles are fought with oneself from within. It is of tremendous importance to triumph over self. It is essential to master and control one's thoughts, decisions, choices and actions. For in the long toil and struggle of life, in the constant quest for happiness and achievement, the richest rewards always go to those who master themselves. For them life not only can be, but is, beautiful, fruitful and good.

Every noble aspiration that you encourage, every temptation that you resist, every undesirable thought that you repress, every bitter word that you withhold, makes a worthwhile contribution to your personal development. Victory over oneself is rarely easy, but oh so vitally important. It is a man-sized task to achieve conquest of self, to uncover and root out undesirable mental thoughts and to substitute right habits of personal conduct. And yet it is within the reach of everyone, for our Creator has endowed us with sufficient strength to triumph, but it is up to us to persevere and overcome. The Bible tells us that anyone who rules himself is greater than a conquering hero who takes a great city.

The famous evangelist, Dwight L. Moody, was perhaps speaking for many of us when he said: "I have more trouble with myself than any other man I have ever met."

—An Editorial from The Lion

WEEKEND OR BACKYARD SUNDAY

Things are changing and doing so more rapidly than we think. Consider the new million dollar shopping centres being erected in suburban areas; the terrific increase in weekend and holiday traffic; the long hike to and back from the cottage each weekend; that 60 per cent of the population used to be metropolitan and now 60 per cent is urban; that television is becoming more popular than radio; the vast increase in new homes being built in the last ten years. These are just a few of the great changes which have come about in the last ten years. Can it be other changes are coming our way? For some years the trend has been the weekend spree of going here and there and coming home again. It has become almost a mania or is it because we can't sit still anymore. Thirty years ago a Sunday afternoon was a backyard gathering under the trees with a good book and the restfulness was in keeping with the Sabbath Day — six days shall thou labor and do all thy work and on the seventh rest. Times certainly have changed for there is now a five day week and believe it most of us don't do much resting. Will the time shortly arrive when the highways will be so congested and the battle of traffic be so ominous many will be content to go to the backyard under the trees and enjoy protected peace and quietness? Could it be the Sabbath Day will sometime soon again become what it was intended — a day of rest and attending church? Could it be that not far off Sunday will not be a day of jagged nerves, complete fatigue and traffic fatalities but a day of rest in the backyard?

GOVERNMENT CONSIDERS FARM LOANS TO COVER CURRENT NEEDS

Roy C. Marler, Chairman of the western section of the Canadian Federation of Agriculture, stated recently that during August the three prairie provincial Federations — Manitoba, Saskatchewan and Alberta — had brought to the attention of the Federal Government the possible necessity of some loaning arrangement enabling farmers to meet current living and operating expenses resulting from congested marketing facilities.

"We received information that the Government was giving consideration to the producers' financial position, and that it was confident of steps being taken to meet the situation," said Mr. Marler. "The prairie section of the Federation commends the Govern-

CATTLE SALE AT WALSH BRINGS \$106,022 SUM

MEDICINE HAT — Auctioneer Archie Boyce of Olds has conducted another successful sale of cattle at the town of Walsh, 35 miles east of the Hat.

The sale, under sponsorship of the Walsh Cattle Marketing Association, saw a total of 862 head sold to 75 buyers, bringing in total of \$106,022, representing an average price per head of \$121.84. Two buyers brought a top price of \$140, paid by Calgary Packers. The top yearling heifers, entered by A. D. Grant and Son, of Walsh, brought a price of \$150 per hundredweight, paid by W. J. Rose of Claresholm.

Swift Canadian Ltd., of Calgary, paid the top price for two-year-old steers, \$16.90 per hundred weight. Thirty-two head of yearling steers, entered by Bert Hargraves of Walsh, brought the top price of \$18.30 in that category, paid by R. Marshall, of Embro, Ontario.

Canada Packers Ltd. came up with a top bid of \$18.40 for two-year-old steers, in buying twenty-two head entered by Oscar Bros. of Walsh. Top price paid for a bull in the Saturday sale was an even \$19.00 per hundredweight, paid by A. D. Grant and Son of Walsh.

The next sale at Walsh, to be held on October 17, is a new venture for the Walsh Cattle Marketing Association. It will be a calf sale, with only a limited number of wet cows, and yearling steers and heifers on the block.

Association officials report that the entry list for the calf sale is already rapidly approaching the capacity of the Walsh yards.

ment on the immediate attention given this problem, though the Wheat Board announcing immediate interim payments on grain delivered during the crop year 1953.

"It is not known as yet whether or not these payments will entirely meet the current needs of farmers. However, they will go a long way in doing so, particularly after the farmers have marketed more than an average crop during the past crop year."

"If these payments do not meet the necessary current requirements, and if farmers can not arrange privately for sufficient funds to operate, the Federation will give further attention to their problem."

The Federations are hopeful that no further difficulty will be experienced, as we have ascertained that very little use was made of provisions made by Parliament two years ago during a period of more adverse circumstances.

BUILDS HOME WITH
57,000 BOTTLES

A retired Alberta funeral director has built a seven-room, castle-type home with 57,000 empty embalming fluid bottles.

He hasn't got the full roof on yet but his strange home already has attracted considerable interest. His guest book shows 2,500 visitors.

David H. Brown admits it sounds crazy to build a house of bottles, before he embarked on the project he made inquiries among architects and building engineers who smiled and agreed that if it were possible to face a 10-storey building with glass brick you could build a two-storey house out of bottles.

Brown knew the strength of a bottle that had contained embalming fluid. He had been a funeral director in Alberta at Vegreville, Lacombe and Red Deer for 30 years before he retired and went on the road selling embalming fluid.

And he knew where to get the bottles. He had friends among funeral directors all the way from Ft. William to Victoria. And they shipped empty bottles to Brown. He also considered some himself with a truck.

He has worked on the building for the past ten months. The result today is a glass castle of seven rooms on a mountainside overlooking beautiful Kootenay Lake at Sanea about 40 miles west of Creston.

The glass castle, complete with turrets is two stories in the centre and one storey on the wings. In one room he has made a fireplace of matching mountain stone that is 12 feet across.

Embalming fluid bottles are uniform in size and square sided. They are about nine inches long. The bottoms are about 2½ inches across and the measurement continues up to the neck.

Brown has placed them so the bottoms are on the outside and the necks complete with screw caps, stick out through the inside walls. This will all be plastered, of course.

The rooms are circular, measuring from 14 to 18 feet in diameter. Brown found the castle effect best because he soon learned he could not make a square joint without exposing the side of the bottles.

Brown figures there is four times more work laying glass bottles than in laying glass bricks but he has met no difficulties. This despite the fact he started with a blueprint, but

LARGE ENTRY FOR
LACOMBE FALL SALE

A total of 268 head have been entered in the Lacombe Fall Sale by some of the better purebred breeders in Alberta. This number is made up of 79 Shorthorns with 23 calves at foot, 88 Herefords with 20 calves at foot and 65 Aberdeen Angus with nine calves at foot.

The sale will be held in the Central Alberta Sales Pavilion, Lacombe, on November 9, commencing at 9 a.m. sharp. The sale is under the auspices of the Central Alberta Cattle Breeders' Association.

Mr. Campbell, secretary of the association, stated that catalogues for the sale will be available in the near future, as plans were finalised at a meeting of the committee last week.

Auctioneers for the fall sale will be C. F. and N. T. Dameron of Bentley; J. W. Durno and Harry Hays of Calgary, and Archie Boyce of Olds.

threw it away.
The picture-quar home, with beautiful grounds, has cost him less than \$10,000 to date. He figures the furniture will cost more than the whole house.

Brown intends to build a smaller place nearby for his family and in summer rent the castle to parties wishing a quiet place for vacation relaxation. It will be completely modern, even to a deep freeze unit and an electric stove.

RED SHIELD APPEAL**

Government Action Imperative

"Drowning men clutch at straw!" We hope this clutch reaches and grasps something more effective.

Most people are aware of the "cash-lease" position this area is in. Also this condition prevails over much of the grain raising west. We have the wheat — millions of bushels stored on farms — and cannot sell it. Most of the wheat is housed in granaries, bins, barns, bunk houses, open straw bins and piled on the ground. It is something like choking at thirst on the watery ocean.

But the backing of wheat and other grains is big — we can't sell it — we need an alternative, and at once.

We are in common, now, with the Farmers Unions of Alberta, Saskatchewan and Manitoba, in requesting the Dominion government (not just the helpless Wheat Board) to lend at least \$1.00 a bushel to farmers on at least 75

per cent of their wheat and stored coarse grains in proportion. In U.S.A. where similar conditions prevail, more than one billion dollars is now loaned to the farmers holding grain. There is no sensible reason why the federal government should not lend to the grain producer and AT ONCE, to relieve a bad situation. It is bad, but it could be worse, for example, Texas eventually to sell. We do have the grain. But "grain in the bin" is not as "money in the bank" as it used to be. We trust the government of Canada will heed this call.

In the meantime we must appreciate any leniency of banks, finance corporations, mortgage companies, machine companies, wholesalers, tax collectors and others during this waiting period.

When the grain is turned loose and the wheat cheques come rolling in we'll think another boom is on us. But let us not spend it too quickly — there may be another "rainy day" and money in the bank will be worth more than wheat in the bin.

CHRISTIAN SCIENCE

The Lesson-Sermon at Christian Science churches on Sunday is titled "Probation After Death." These are some of the passages, from the Bible: "Then spake Jesus again unto them, saying, I am the light of the world: he that followeth me shall not walk in darkness, but shall have the light of life." (John 8: 12). And from "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "Universal salvation rests on progression and probation, and is unattainable without them. Heaven is not a locality, but a divine state of mind in which all the manifestations of mind are harmonious and immortal, because sin is not there and man is found having no righteousness of his own, but in possession of 'the mind of the Lord', as the Scripture says. (291: 12-13).

Alberta's oil production is averaging 220,000 barrels a day under quota restriction. It is stated that production could increase to 330,000 barrels a day without any restrictions.

M.V.B.C. NEWS

(From Our Own Correspondent)

During the last week the students have registered in their respective classes and the teachers have met with them outlining their courses and giving the necessary assignments. They are a happy group, and we appreciate the interest they evidence and the contentment and happiness they radiate around the campus. There are still others who will be coming.

On Sunday Rev. and Mrs. Taylor and Mr. and Mrs. Lusk were guest speakers and singers in the Concord church. It is of interest to many in the community to know that Mr. and Mrs. Ashburn White are being well received in the Concord district, and Sunday School and services are well attended as a result. Mrs. White is the former Beattie Finlay.

The Living Endowment League is growing each week. We have now 110 units of ten dollars each sold, and we are hoping to reach the 300 mark within a year. If you are interested in this move toward financial security for the College, any one of our units will be happy to talk to you about it. The lovely embossed certificates have been sent to all who have paid for at least one unit. These certificates are numbered, indicate the number of units subscribed, with your name written in, and the signatures of the president and treasurer of the College, form a beautiful memento of your part in this great work.

On Friday evening the entire faculty and student body enjoyed an outing near the Little Red, some miles west of town. After a strenuous game of baseball, the students gathered around a huge bonfire to roast weiners and apples. The night was perfect for such a time as that. Before coming home a fellowship meeting, led by the student president, Marvin Wahls, brought the outing to a close, many of the students giving their testimony and expressing appreciation.

Mr. and Mrs. Taylor celebrated their 10th wedding anniversary last Friday. The good wishes of friends and neighbors helped to make the day a good one.

Mr. Lusk has enrolled students for voice and finds that he will have time to take others of the community who wish to study voice under him. We suggest that those who wish to continue will soon register so that he may conclude his timetable.

Some requests have come for a continuation of the Community Choral Society. This has met with approval from Mr. Lusk and very soon further announcements will be made concerning this.

These are wonderful days; days of sunshine and balmy breezes; days of activity in the fields and gardens; days of fun and frolic. Let us also make them days of praise and thankfulness to Him who has given them to us.

Mr. and Mrs. Baptiste and boys, and Mrs. Lucy Thompson, of Calgary, were Thanksgiving visitors with Mr. and Mrs. Alfie Thompson and family.

Mrs. Otto Bittner's brother, Lewis and family of Swift Current, spent a few days with them recently.

Mr. and Mrs. Harold Shells and family motored to Oyen to spend the weekend with the latter's parents.

Mr. and Mrs. Walter McCulloch were Thursday business visitors in Calgary.

Reginald Schumaker has gone to Veteran to work on an oil rig for a few days.

Mr. and Mrs. Schumaker and Joyce took in the rugby game Saturday night between Calgary and Saskatchewan Roughriders and report a real good contest.

Miss Olwen Bittner spent a few days last week with her parents. There is going to be a shower held at Lone Pine hall for Miss Shirley Spragg Friday night. Everybody welcome, pot-luck lunch.

WEDDINGS

LUFT-BAGSHAW

Baskets of gladiolus and sweet peas decorated the Evangelical church October 19 for the afternoon wedding of Marion Anne Bagshaw, only daughter of Mr. and Mrs. J. K. Bagshaw of Elkton, and Elmer Allan Luft, son of Mr. and Mrs. J. R. Luft of Didsbury. Rev. A. J. Grams officiated.

Given in marriage by her father, the bride wore a four-length gown of lace and net over satin. The fitted lace bodice was topped with matching lace bolero, styled with Peter Pan collar and long pointed sleeves. A jeweled coronet held in place her finger-tip length veil of illusion net and lace and she carried a bouquet of red roses. Matron of honor, Mrs. E. Swalm, cousin of the groom, was gownned in mauve net over taffeta and the two bridesmaids, Miss Leona Blain and Miss Shirley Letts, wore green and yellow net over taffeta respectively. The attendants complemented their frocks with matching mitts and short veils and carried colonial bouquets of carnations. The two little flower girls, Beverly Sutherland and Linda Rinehart, were sweet in blue and pink net over taffeta with white nylon gloves, and each carried a nosegay of roses and carnations.

Mr. Roy Luft attended his brother as groomsman and the ushers were Mr. Leonard Luft and Mr. Robert Bagshaw.

Miss Helen Swalm played the wedding music and the soloist, Miss Mildred Luft, sang "Oh Perfect Love" during the signing of the register.

For the wedding the bride's mother wore a frock of royal blue crepe and nylon lace, with pink accessories and a corsage of pink roses. The groom's mother wore a medium blue crepe and lace frock with navy accessories, and a corsage of pink roses.

Following the ceremony a reception was held in the church basement, which was tastefully decorated with pink and white streamers and bells. The bride's table was centred with a three-tiered wedding cake, which was surrounded with tulle and pastel sweet peas. Silver vases of sweet peas and white and pink candies completed the table decorations.

During the reception the soloist sang "I'll Walk Beside You." For travelling the bride and groom wore matching suits of medium blue worsted, the bride's accessories being pink with a corsage of red roses. On their return from a honeymoon trip to points in the U.S. Mr. and Mrs. Luft will reside at Elkton.
